The Benefits of Renting a Snowcat

- 1 No upfront capital** – The capital you save from renting versus purchasing can be used in another aspect of your business achieving a positive return on investment. *Do you really want to invest in something that declines in value each year?*
- 2 Interest expense on a purchase** combined with depreciation means you are spending significantly more than renting the exact same machine
- 3 Monthly billing, only during the season** – Improved cash flow, easier budgeting
- 4 Lease costs are 100% expensable** vs. capital depreciation schedules imposed by the IRS
- 5 Renting includes scheduled maintenance** and component service life
- 6 Renting allows you to change configurations with minimal cost impact**
- 7 Off season indoor storage and disciplined maintenance** is essential to winter performance and quality condition
- 8 Rented equipment will be newer,** lower hours and latest technology
